ABOUT ADVAITA

Ten years ago, the sole idea of organizing a techno-cultural festival was conceived. It was named “ADVAITA”, meaning “non-duality”, which was the intention, to fuse both technology and culture into one.

Nine years have seen a mercurial rise in the fest, expanding and establishing itself as one of the biggest and most anticipated events in the state of Odisha.

Every year, ADVAITA reaches new heights. The standard of the events is always top-notch, which reflects the magnanimous participation strength every year. With eminent celebrities attending our events and attracting a huge crowd, ADVAITA always aims for the best.
